

Test Case ID: GTC_52C228

Title: Verify login attempt lockout after multiple failed login attempts post password reset

Objective: Ensure that the user account is locked out after multiple failed login attempts following a password reset.

Preconditions: User has required setup

Test Steps:

Reset the password for the test user

Attempt to log in with incorrect credentials multiple times

Verify that the user account is locked out after exceeding the maximum allowed failed login attempts

Expected Result: The user account should be locked out after multiple failed login attempts following a password reset.

Confidence: 80%
