

Test Case ID: GTC_570785

Title: Verify successful login after password reset with correct credentials

Objective: Ensure that a user can successfully log in after resetting their password with the correct credentials.

Preconditions: User has required setup

Test Steps:

1. Reset the password for the user account
2. Attempt to log in with the correct credentials
3. Verify that the user is able to log in successfully

Expected Result: User should be able to successfully log in after password reset

Confidence: 90%
