Test Case ID: GTC_2ACC89

Title: Verify password reset link expiration

Objective: Ensure that the password reset link expires after a certain period of time

Preconditions: User has required setup

Test Steps:
Request a password reset for the user account
Wait for the specified time period for the link to expire
Attempt to use the expired password reset link

Expected Result: The password reset link should be expired and the user should be prompted to request a new one

Confidence: 80%
