Test Case ID: GTC_3B7506

Title: Verify login failure after password reset with incorrect credentials

Objective: Ensure that a user cannot log in after resetting their password with incorrect credentials.

Preconditions: User has required setup

Test Steps:
Reset the password for the test user
Attempt to log in with the correct username and an incorrect password
Verify that the user is unable to log in

Expected Result: The user should not be able to log in after resetting their password with incorrect credentials.

Confidence: 85%
